TECHNOLOGIES & FUNCTIONS

Red Bull SPECT, the eyewear brand known for its dynamic and innovative approach, is committed to pushing the limits of design and technology in goggles and sunglasses. Rooted in Red Bull's spirit of extreme sports and high-performance, the brand delivers products that cater to the demanding needs of athletes, outdoor adventurers, and active individuals who value both performance and style.

DE | Red Bull SPECT, die Brillenmarke mit ihrem dynamischen und innovativen Ansatz, ist bestrebt, die Grenzen von Design und Technologie bei Goggles und Sonnenbrillen neu zu definieren. Verwurzelt im Geist von Red Bull, der für Extremsport und Höchstleistung steht, entwickelt die Marke Produkte, die den hohen Ansprüchen von Athleten, Outdoor-Abenteurern und aktiven Menschen gerecht werden, die sowohl auf Leistung als auch auf Stil Wert legen.

FR | Red Bull SPECT, la marque de lunettes connue pour son approche dynamique et innovante, s'efforce de repousser les limites du design et de la technologie pour les masques de ski et les lunettes de soleil. Ancrée dans l'esprit de Red Bull, synonyme de sports extrêmes et de haute performance, la marque propose des produits répondant aux exigences des athlètes, des aventuriers en plein air et des personnes actives qui recherchent à la fois performance et style.

CHROM°X

CHROM°X features photochromic lenses that automatically adapt to changing light conditions. These innovative lenses respond to UV radiation, adjusting tint to shield the eyes from glare while ensuring clear vision. Especially effective in fluctuating light conditions, CHROM°X provides an additional and reliable protective function for the eyes during any sporting activity.

IB BOOST

Lenses with I°BOOST technology provide intense contrasts, brilliant colors, and razor-sharp vision that impresses in any environment. This technology maximizes the enjoyment of sports by ensuring clear and precise vision under changing light conditions.

P POLAR

Polarizing sunglasses lenses offer optimal technology for both sports and everyday use. They minimize glare and maximize visibility by effectively eliminating reflected light from surfaces like water, snow, and asphalt. This allows for more precise perception of contrasts and colors, which is particularly crucial in fast-paced sports.

PC LENS

PC (polycarbonate) lenses provide maximum protection due to their exceptional impact resistance, ensuring durability and safety in various environments.

FLOAT W

FLOAT W sunglasses stay afloat if dropped in water, making them ideal for water sports and outdoor adventures. The lightweight TPX frame and TAC polarized lenses both float, while an anti-saltwater coating helps protect the mirror finish for longer durability.

THE LIFESTYLE

The LIFESTYLE Collection from Red Bull SPECT Eyewear combines sporty innovation with modern design, catering to those who want to live life actively and stylishly – whether through outdoor sports, road trips, or relaxing moments outdoors. These sunglasses offer optimal sun protection, maximum comfort, and outstanding performance, without compromising on style. With a wide range of models that are both functional and aesthetic, the collection meets various needs – from sporty cyclists to fashion-forward individuals. Each model blends sporty elements with elegant accents, making them perfect companions for any lifestyle.

DE | Die LIFESTYLE Collection von Red Bull SPECT Eyewear verbindet sportliche Innovation mit modernem Design und richtet sich an alle, die das Leben aktiv und stilvoll genießen möchten – sei es beim Outdoor-Sport, auf einem Roadtrip oder bei entspannten Momenten im Freien. Diese Brillen bieten optimalen Sonnenschutz, höchsten Komfort und ausgezeichnete Performance, ohne Kompromisse beim Stil einzugehen. Mit einer breiten Auswahl an Modellen, die sowohl funktional als auch ästhetisch überzeugen, spricht die Kollektion unterschiedlichste Bedürfnisse an – von sportlichen Radfahrern bis hin zu modebewussten Individualisten. Jedes Modell kombiniert sportliche Elemente mit eleganten Akzenten, die perfekt zu jedem Lebensstil passen.

FR | La LIFESTYLE Collection de Red Bull SPECT Eyewear allie innovation sportive et design moderne, s'adressant à ceux qui souhaitent vivre pleinement et avec style – que ce soit à travers des sports de plein air, des road trips ou des moments de détente en extérieur. Ces lunettes de soleil offrent une protection optimale contre le soleil, un confort maximal et des performances exceptionnelles, sans compromettre le style. Avec une large gamme de modèles alliant fonctionnalité et esthétique, la collection répond à divers besoins – des cyclistes sportifs aux individus soucieux de la mode. Chaque modèle combine des éléments sportifs et des accents élégants, les rendant parfaits pour tous les styles de vie.

Polarizing lenses are particularly advantageous for sports and lifestyle activities. They absorb dazzling light reflections and filter out unwanted reflections.

DE | Polarisierende Gläser sind besonders vorteilhaft für Sport- und Freizeitaktivitäten. Sie absorbieren blendende Lichtreflexionen und filtern unerwünschte Spiegelungen heraus.

FR | Les verres polarisants sont particulièrement avantageux pour les activités sportives et de loisirs. Ils absorbent les reflets éblouissants et filtrent les réflexions indésirables.

PERFORMANCE

The **PERFORMANCE** Collection by Red Bull SPECT Eyewear is designed for those who seek the adrenaline rush and want to experience every moment with full energy. This collection combines cutting-edge technologies with outstanding performance, making it ideal for demanding sports and various (outdoor) activities. It is specifically created for athletes and adventurers who refuse to compromise on performance, protection, and style. Each model blends innovative technologies with dynamic design, offering both functionality and aesthetics – perfectly suited to meet the challenges of any activity.

DE | Die **PERFORMANCE** Collection von Red Bull SPECT Eyewear richtet sich an alle, die den Adrenalinkick suchen und jeden Moment mit voller Energie erleben wollen. Diese Kollektion vereint Technologien mit herausragender Performance und ist damit ideal für anspruchsvolle Sportarten und verschiedenste (Outdoor-)Aktivitäten. Sie ist speziell für Athleten und Abenteurer entwickelt, die keine Kompromisse in Bezug auf Leistung, Schutz und Stil eingehen möchten. Jedes Modell kombiniert innovative Technologien mit einem dynamischen Design, das sowohl funktional als auch ästhetisch überzeugt – perfekt, um den Herausforderungen jeder Aktivität gerecht zu werden.

FR | La **PERFORMANCE** Collection de Red Bull SPECT Eyewear s'adresse à ceux qui recherchent le frisson de l'adrénaline et souhaitent vivre chaque instant avec énergie. Cette collection allie des technologies de pointe à des performances exceptionnelles, ce qui la rend idéale pour les sports exigeants et diverses activités (de plein air). Elle a été spécialement conçue pour les athlètes et les aventuriers qui ne veulent faire aucun compromis en termes de performance, de protection et de style. Chaque modèle associe des technologies innovantes à un design dynamique, offrant à la fois fonctionnalité et esthétique – parfaitement adapté pour relever les défis de toutes les activités.

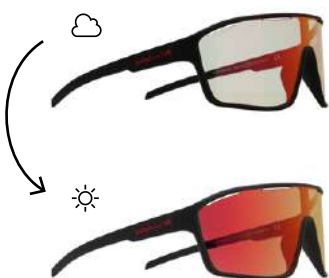

CHROM°X

CHROM°X are photochromic lenses that automatically adjust to changing light conditions, offering optimal protection and clear vision. Ideal for sports activities, they always provide the optimal tint for a comfortable viewing experience.

DE | CHROM°X sind photochrome Brillengläser, die sich automatisch an wechselnde Lichtverhältnisse anpassen und optimalen Schutz sowie klare Sicht bieten. Ideal für sportliche Aktivitäten, bieten sie stets die optimale Tönung für ein komfortables Seherlebnis.

FR | CHROM°X sont des écrans photochromiques qui s'ajustent automatiquement à la lumière, offrant une protection et une vision claire optimales. Parfaits pour les activités sportives, ils assurent toujours la teinte idéale pour un confort visuel.

IB I BOOST

Lenses with I°BOOST technology provide intense contrasts, brilliant colors, and razor-sharp vision that impresses in any environment. This technology maximizes the enjoyment of sports by ensuring clear and precise vision under changing light conditions.

DE | Gläser mit der I°BOOST-Technologie sorgen für intensive Kontraste, brillante Farben und gestochen scharfe Sicht – und überzeugen in jeder Umgebung. Diese Technologie maximiert das Sporterlebnis, indem sie auch bei wechselnden Lichtverhältnissen eine klare und präzise Sicht gewährleistet.

FR | Les verres dotés de la technologie I°BOOST offrent des contrastes intenses, des couleurs éclatantes et une vision d'une netteté exceptionnelle, performante dans tous les environnements. Cette technologie optimise le plaisir du sport en garantissant une vision claire et précise, même lorsque les conditions de luminosité changent.

FLLOATABLE

The FLOATABLE Collection by Red Bull SPECT Eyewear is built for life on and around the water. Designed for water sports enthusiasts, pool lovers, beachgoers, and outdoor adventurers, these sunglasses combine protection and functionality with innovative features. The lightweight TPX frame has a lower density than water, allowing it to float if dropped, while the TAC polarized lenses also stay afloat. An anti-saltwater coating helps protect the mirror finish and ensures long-lasting durability, even in marine environments. Combining performance-driven features with a sporty, modern design, the FLOATABLE Collection is the perfect companion for days by the pool, at the beach, on the boat, or wherever your water adventures take you.

DE | Die FLOATABLE Collection von Red Bull SPECT Eyewear ist für das Leben auf und am Wasser gemacht. Für Wassersportfans, Pool-Liebhaber, Strandbesuchende und Outdoor-Abenteurer entwickelt, verbinden diese Sonnenbrillen Schutz und Funktionalität mit innovativen Features. Der leichte TPX-Rahmen hat eine geringere Dichte als Wasser und schwimmt daher, ebenso wie die TAC-Polarized-Gläser. Eine Anti-Salzwasser-Beschichtung schützt das Mirror-Finish und sorgt für langanhaltende Haltbarkeit auch in maritimen Umgebungen. Die FLOATABLE Collection ist der perfekte Begleiter für Tage am Pool, am Strand, auf dem Boot oder überall dort, wo Wasser Teil des Abenteuers ist.

FR | La FLOATABLE Collection de Red Bull SPECT Eyewear est conçue pour la vie sur et autour de l'eau. Dédiées aux amateurs de sports nautiques, aux passionnés de piscine, aux adeptes de plage et aux aventuriers outdoor, ces lunettes de soleil associent protection et fonctionnalité grâce à des caractéristiques innovantes. La monture légère en TPX, moins dense que l'eau, flotte en cas de chute, tout comme les verres polarisés TAC. Un revêtement anti-eau salée protège la finition miroir et assure une durabilité prolongée, même en milieu marin. La collection FLOATABLE est le compagnon idéal pour les journées à la piscine, à la plage, en bateau ou partout où l'eau fait partie de l'aventure.

FLOATABLES

FLOAT W **FLOAT W**

FLOAT W sunglasses stay afloat if dropped in water, making them ideal for water sports and outdoor adventures. The lightweight TPX frame and TAC polarized lenses both float, while an anti-saltwater coating helps protect the mirror finish for longer durability.

DE | Die FLOAT W Sonnenbrillen bleiben an der Wasseroberfläche, wenn sie ins Wasser fallen, und sind damit ideal für Wassersport und Outdoor-Abenteuer. Der leichte TPX-Rahmen sowie die polarisierten TAC-Gläser sind schwimmfähig. Eine spezielle Salzwasser-Schutzbeschichtung trägt zudem dazu bei, die Verspiegelung länger zu erhalten und ihre Langlebigkeit zu erhöhen.

FR | Les lunettes de soleil FLOAT W flottent à la surface de l'eau lorsqu'elles y tombent, ce qui les rend idéales pour les sports nautiques et les aventures en plein air. La monture légère en TPX ainsi que les verres polarisés en TAC sont tous deux flottants. Un revêtement spécial anti-sel protège en outre l'effet miroir et contribue à une meilleure durabilité.
